**College of Engineering, Forestry, and Natural Sciences**  
[nau.edu/cefs](http://nau.edu/cefs)

At the College of Engineering, Forestry, and Natural Sciences (CEFS) we're training next-generation engineers and scientists for exciting careers. With our small classes, dedicated faculty, and innovative research projects, you will discover the importance of science and technology in solving the challenges of today's world.

U.S. News and World Report ranks Northern Arizona University's engineering programs among the best in the USA.

Physical and life science, forestry, mathematics and engineering students gain a foundation in hands-on research in state-of-the-art facilities that include a modern engineering building, as well as new chemistry and biology lab facilities.

The award-winning Applied Research and Development building on campus ranks as one of the most ecologically-friendly buildings in the world (Platinum LEEDS rating of 60 points)
